Question 84

**Essay**

Modify

Remove

**Question** For each of the following situations, indicate whether the taxpayer(s) is(are) required to file a tax return for 2011. Explain your answer.

- Debra (age 68) and Jerry (age 70) are married and file a joint return. They received \$22,000 in interest income from a savings account.
- Margie is a single taxpayer with wages in 2011 of \$8,400 and interest income of \$200.
- Janie (age 30) and Scott (age 28) are married and file a joint tax return. They had \$17,000 in earnings from wages.
- Kim, age 20, is a single college student who is claimed as a dependent by her parents. She earned \$2,000 from a part-time job and has \$450 in interest income.
- Stefanie, a 25-year-old single taxpayer, has wages of \$1,500, from which \$80 of federal income tax was withheld.

**Answer**

- Yes. The standard deduction of \$11,600 plus \$7,400 in personal exemptions plus 2 additional standard deductions of \$1,150 each add up to \$21,300, less than the income of \$22,000.
- No. Income of \$8,600 is less than the sum of the \$3,700 personal exemption plus the \$5,800 standard deduction.
- No. The taxable income of \$17,000 is less than the sum of the \$7,400 personal exemptions plus the \$11,600 standard deduction.
- Yes. Gross income is more than the larger of \$950 or \$2,300 (earned income of \$2,000 plus \$300).
- No. Stefanie is not required to file a tax return, but she must file if she wishes to receive a refund of the income tax withheld.

**Question** Betty (age 39) and Steve (age 50) are married with two dependent children. They file a joint return for 2011. Their income from salaries totals \$155,000; they receive \$1,000 in taxable interest and \$2,000 in royalties. Their deductions for adjusted gross income amount to \$3,200; they have itemized deductions totaling \$40,000. Calculate the following amounts:

- Gross income
- Adjusted gross income
- Itemized deduction or standard deduction amount
- Deduction for exemptions
- Taxable income
- Regular income tax liability from rate schedules

**Answer**

- \$158,000** = \$155,000 + \$1,000 + \$2,000
- \$154,800** = \$158,000 - \$3,200
- \$40,000**
- \$14,800** = 4 × \$3,700
- \$100,000**
- \$17,250** (tax rate schedule: \$9,500 + \$7,750)

**Question** Mike purchased stock in MDH corporation 5 years ago for \$15,250. This year he sold it for \$12,800 and then paid a \$150 sales commission to his broker.

- What is Mike's amount realized?
- What is Mike's adjusted basis?
- What is Mike's *realized* gain or loss?
- What is Mike's *recognized* gain or loss?
- How much of the gain or loss can Mike report in his tax return?

**Answer**

- Amount realized: **\$12,650**
- Adjusted basis: **\$15,250**
- Realized loss:  $\$12,800 - \$150 - \$15,250 = \mathbf{\$2,600}$
- Recognized loss:  $\$12,800 - \$150 - \$15,250 = \mathbf{\$2,600}$
- \$2,600**. Up to \$3,000 of capital loss can be written off each year.

**Question** Fran bought stock in the FCM corporation 4 years ago at a price of \$18,000. She sold it this year for \$22,500 and paid her broker \$225 from the proceeds of the sale.

- What is Fran's amount realized?
- What is Fran's adjusted basis?
- What is Fran's *realized* gain or loss?
- What is Fran's *recognized* gain or loss?
- How much of the gain or loss should be included in her tax return?

**Answer**

- Amount realized: **\$22,275**
- Adjusted basis: **\$18,000**
- Realized gain:  $\$22,500 - \$225 - \$18,000 = \mathbf{\$4,275}$
- Recognized gain:  $\$22,500 - \$225 - \$18,000 = \mathbf{\$4,275}$
- \$4,275**. There is no limit on the amount of capital gain to be included in tax returns.

**Question** Distinguish between reporting entities and taxable entities and give examples of each.

**Answer** A partnership is an example of a reporting entity. It pays no tax, but must report partnership income or loss and the allocation of income or loss to partners. Individuals, corporations, estates, and trusts are examples of taxable entities whose income is subject to federal income taxation.

[◀ Add Question Here](#)**Question 108 Essay**

Modify

Remove

**Question** What is the difference between the standard deduction and itemized deductions?

**Answer** The standard deduction is a flat amount, varying based on a taxpayer's filing status (single, married, head of household, etc.), age, and vision, which is deducted from adjusted gross income (AGI) along with a taxpayer's exemptions to arrive at taxable income.

Itemized deductions are expenses paid by a taxpayer including medical expenses (over the 7.5 percent of AGI limit), various taxes, home mortgage interest and

investment interest, charitable contributions, personal casualty losses and miscellaneous deductions (over the 2 percent of AGI limit). If the total itemized deductions are larger than the taxpayer's standard deduction the taxpayer should complete Schedule A, listing all itemized deductions, and use this amount instead of the standard deduction. By itemizing deductions when they are larger than the standard deduction, taxpayers may reduce their taxable income and pay less tax.
