Multiple Choice 0 points

[Modify](#) [Remove](#)

**Question** Which one of the following is a correct expression of the accounting equation?

- Answer**
- Assets + Liabilities = Owners' Equity
  - Assets = Liabilities - Owners' Equity
  - Assets + Owners' Equity = Liabilities
  -  Assets = Liabilities + Owners' Equity

 [Add Question Here](#)

Question 28 ▾

Multiple Choice 0 points

[Modify](#) [Remove](#)

**Question** How is the balance sheet linked to the other financial statements?

- Answer**
- The amount of retained earnings reported on the balance sheet is equal to net income.
  - Retained earnings is added to total assets and reported on the balance sheet.
  -  Net income increases retained earnings on the statement of retained earnings, which ultimately increases retained earnings on the balance sheet.
  - There is no link between the balance sheet and other statements, as each contains different accounts and provides different information.

Total assets	\$400,000
Total owner's equity	150,000

During the year, total assets increased by \$100,000 and total liabilities increased by \$40,000. The company also paid \$30,000 in dividends. No other transactions occurred except revenues and expenses. How much is net income for the year?

- Answer**
- \$30,000
  - \$60,000
  - \$70,000
  - ✔ \$90,000

**Correct Feedback** Assets: \$400,000+\$100,000 = \$500,000  
Liabilities: (\$400,000-\$150,000)+\$40,000 = \$290,000  
Owners' Equity at Year End: \$500,000-\$290,000 = \$210,000  
Net Income: \$210,000-\$150,000+\$30,000 = \$90,000

**Incorrect Feedback** Assets: \$400,000+\$100,000 = \$500,000  
Liabilities: (\$400,000-\$150,000)+\$40,000 = \$290,000  
Owners' Equity at Year End: \$500,000-\$290,000 = \$210,000  
Net Income: \$210,000-\$150,000+\$30,000 = \$90,000

**Question** The following information is provided by the Ferrara Corporation:

Beginning retained earnings	\$ 50,000
Ending retained earnings	70,000
Dividends declared and paid	10,000
Revenue	50,000

Calculate Ferrara Corporation's expenses.

- Answer**
- ✔ \$20,000
  - \$30,000
  - \$40,000
  - Cannot tell from the information provided.

**Correct Feedback** \$50,000+X-\$10,000 = \$70,000  
X = \$30,000 or Net Income  
\$50,000 (Revenue) - \$30,000 (Net Income) = \$20,000 Expenses

**Incorrect Feedback** \$50,000+X-\$10,000 = \$70,000  
X = \$30,000 or Net Income  
\$50,000 (Revenue) - \$30,000 (Net Income) = \$20,000 Expenses

**Question** Macon Corporation has been in the business of delivering small packages for local companies within the city of Atlanta, Georgia, since 1960. The following information concerning financial activities during 2014 is available at December 31, 2014:

Delivery revenue	\$280,000	Salary and wage expense	\$82,000
Dividends declared and paid	85,000	Rent expense	43,000
Buildings	140,000	Land	60,000
Accounts payable	30,000	Accounts payable	30,000
Capital stock	105,000	Retained earnings, January 1, 2014	42,000
Water, gas, and electricity	28,000	Notes payable	34,000
Cash	56,000	Income tax expense	18,000

- A. Prepare an income statement for the year ended December 31, 2014.  
B. If you were a bank loan officer and Macon Corporation wanted to borrow \$100,000 from your bank, would you lend the money? Explain.  
C. Calculate retained earnings at December 31, 2014.

**Answer** A.

Macon Corporation Income Statement Year Ended December 31, 2014			
Revenues:			
Delivery revenue			\$280,000
Expenses:			
Salary and wage expense	\$82,000		
Rent expense	43,000		
Water, gas, and electricity	28,000		
Income tax expense	<u>18,000</u>		<u>171,000</u>
Net income			<u>\$109,000</u>

- B. The company appears profitable. Basing the decision solely on profitability, it appears the company can generate operating income to enable it to repay the loan. But the company also had accounts payable and notes payable of \$30,000 and \$34,000, respectively, for which cash may not be available to pay when these amounts become due.  
C. \$42,000 + \$109,000 - \$85,000 = \$66,000

**Question** Meredith Corporation is in the business of providing dog and cat grooming services to customers within the city of New York. The following information concerning financial activities during 2014 is available at December 31, 2014:

Grooming revenue	\$130,000	Salary and wage expense	\$44,000
Dividends declared and paid	13,000	Rent expense	24,000
Equipment	40,000	Furniture	60,000
Accounts payable	30,000	Accounts receivable	23,000

Capital stock	22,000	Retained earnings, Jan. 1, 2014	21,000
Utilities expense	10,000	Notes payable	88,000
Cash	33,000	Income tax expense	7,000

- A. Calculate net income for 2014.  
B. Prepare a statement of retained earnings for the year ended December 31, 2014.  
C. What information can you derive from the statement of retained earnings concerning this company? Explain.

Answer A. \$130,000 - \$10,000 - \$44,000 - \$24,000 - \$7,000 = \$45,000  
B.

Meredith Corporation  
Statement of Retained Earnings  
For the Year Ended December 31, 2014

Beginning balance	\$21,000
Add: Net income for the year	45,000
Less: Dividends for the year	(13,000)
Ending balance	\$53,000

- C. The statement of retained earnings provides information on the changes in retained earnings during 2014. Net income causes retained earnings to increase, and dividends cause it to decrease. Since net income exceeded dividends paid, the ending balance is larger than the beginning balance.

**Question Taryn Corporation**

The accountant for Taryn Corporation prepared the following list of account balances from the company's records for the year ended December 31, 2014:

Sales revenue	\$165,000	Cash	\$ 30,000
Accounts receivable	14,000	Selling expenses	44,000
Equipment	42,000	Common stock	41,000
Accounts payable	12,000	Interest income	3,000
Salaries and wages expense	40,000	Cost of sales	51,000
Inventories	22,000	Prepaid expenses	2,000
Income taxes payable	5,000	Income taxes expense	18,000
Notes payable	20,000	Retained earnings	?

Read the information for Taryn Corporation. Determine the following amounts for Taryn Corp.

A)	Total assets at the end of 2014		
B)	Total liabilities at the end of 2014		
C)	What parties have a claim on Taryn Corporation's assets? Explain you answer in the terms of the accounting equation.		

Answer A) \$110,000  
(\$30,000 Cash + \$14,000 Accounts Receivable + \$42,000 Equipment + \$22,000 Inventories + 2,000 Prepaid Expenses = \$110,000)  
  
B) \$37,000  
(\$12,000 Accounts Payable + \$5,000 Income Taxes Payable + \$20,000 Notes Payable = \$37,000)  
  
C) Both the creditors and the owners have a claim on the assets of the corporation. The creditors have their claim arising from the liabilities of the corporation, while the owners have a claim through the owners' (or stockholders') equity.

**Question Taryn Corporation**

The accountant for Taryn Corporation prepared the following list of account balances from the company's records for the year ended December 31, 2014:

Sales revenue	\$165,000	Cash	\$ 30,000
Accounts receivable	14,000	Selling expenses	44,000
Equipment	42,000	Common stock	41,000

Accounts payable	12,000	Interest income	3,000
Salaries and wages expense	40,000	Cost of sales	51,000
Inventories	22,000	Prepaid expenses	2,000
Income taxes payable	5,000	Income taxes expense	18,000
Notes payable	20,000	Retained earnings	?

Read the information for Taryn Corporation. Determine the following amounts for Taryn Corporation.

A)	The balance of retained earnings at the end of 2014.	
B)	The total stockholders' equity at the end of 2014.	
C)	Name the two events that might cause stockholders' equity to increase.	

- Answer A) \$32,000  
(\$110,000 Total Assets - \$37,000 Total Liabilities - \$41,000 Common Stock = \$32,000)
- B) \$73,000  
(\$110,000 Total Assets - \$37,000 Total Liabilities = \$73,000; OR \$41,000 Common Stock + \$32,000 Retained Earnings = \$73,000)
- C) Stockholders equity can increase when common (or capital) stock is issued to investors. It also can increase through increases to retained earnings when the net income of the business is greater than any dividends paid to the shareholders.

Question Taryn Corporation

The accountant for Taryn Corporation prepared the following list of account balances from the company's records for the year ended December 31, 2014:

Sales revenue	\$165,000	Cash	\$ 30,000
Accounts receivable	14,000	Selling expenses	44,000
Equipment	42,000	Common stock	41,000
Accounts payable	12,000	Interest income	3,000
Salaries and wages expense	40,000	Cost of sales	51,000
Inventories	22,000	Prepaid expenses	2,000
Income taxes payable	5,000	Income taxes expense	18,000
Notes payable	20,000	Retained earnings	?

Read the information for Taryn Corporation. Prepare a balance sheet for Taryn Corporation in good form.

Answer

Taryn Corporation Balance Sheet December 31, 2014			
	<u>Assets</u>	<u>Liabilities &amp; Owners' Equity</u>	
Cash	\$ 30,000	Accounts payable	\$ 12,000
Accounts receivable	14,000	Income taxes payable	5,000
Inventories	22,000	Notes payable	20,000
Prepaid expenses	2,000	Common stock	41,000
Equipment	<u>42,000</u>	Retained Earnings	<u>32,000</u>
	Total liabilities and		
Total assets	<u>\$ 110,000</u>	owners' equity	<u>\$ 110,000</u>

Question Taryn Corporation

The accountant for Taryn Corporation prepared the following list of account balances from the company's records for the year ended

December 31, 2014:

Sales revenue	\$165,000	Cash	\$ 30,000
Accounts receivable	14,000	Selling expenses	44,000
Equipment	42,000	Common stock	41,000
Accounts payable	12,000	Interest income	3,000
Salaries and wages expense	40,000	Cost of sales	51,000
Inventories	22,000	Prepaid expenses	2,000
Income taxes payable	5,000	Income taxes expense	18,000
Notes payable	20,000	Retained earnings	?

Read the information for Taryn Corporation. Determine the following amounts for Taryn Corporation:

A)	Total revenues for 2014.	
B)	Total expenses for 2014.	
C)	What is the purpose of the income statement?	
D)	Is Taryn Corp. profitable? Explain your answer.	
E)	Is this the first year of operations for Taryn Corp.? Explain your answer.	

- Answer**
- A) \$168,000  
(\$165,000 Sales Revenue + \$3,000 Interest Income = \$168,000)
- B) \$153,000  
(\$51,000 Cost of Sales + \$40,000 Salaries & Wages Expense + \$44,000 Selling Expenses + \$18,000 Income Taxes Expense = \$153,000)
- C) The purpose of the income statement is to provide information regarding the revenues and expenses of the entity. The difference shows the profitability of the company for a particular period of time.
- D) Taryn Corporation had net income for the period of \$15,000. Since revenues exceeded expenses for the period, the company would be considered profitable.
- E) This would not be the first year of operations for Taryn Corporation. The reasons for this are that the ending Retained Earnings balance is greater than the net income of \$15,000. Since the ending balance of Retained Earnings is \$32,000, and Net Income for the period was \$15,000 as well as apparently no dividends declared and paid to the stockholders during the year, Taryn Corporation began the year with a balance of \$17,000 (\$32,000 - \$15,000) in Retained Earnings.

**Question Canyon Corporation**

The accountant for the Canyon Corporation prepared the following list from the company's accounting records for the year ended December 31, 2014:

Retained earnings	?	Prepaid expenses	\$ 3,000
Cash	\$ 7,000	Common stock	40,000
Accounts payable	15,000	Accounts receivable	17,000
Sales revenue	125,000	Interest income	500
Cost of sales	70,000	Salary expense	4,000
Land	75,000	Income tax expense	200
Notes payable	15,000	Selling expense	45,000
Inventory	20,000	Salaries payable	5,000

Read the information for Canyon Corporation. Determine the following amounts for Canyon Corporation.

A)	Total assets at the end of 2014.	
B)	Total liabilities at the end of 2014.	
C)	Total equity at the end of 2014.	

- Answer**
- A) \$122,000  
(\$3,000 Prepaid Expenses + \$7,000 Cash + \$17,000 Accounts Receivable + \$75,000 Land + \$20,000 Inventory = \$122,000)
- B) \$35,000  
(\$15,000 Accounts Payable + \$15,000 Notes Payable + \$5,000 Salaries Payable = \$35,000)
- C) \$87,000  
(\$122,000 Total Assets - \$35,000 Total Liabilities = \$87,000)

Land	75,000	Income tax expense	200
Notes payable	15,000	Selling expense	45,000
Inventory	20,000	Salaries payable	5,000

Read the information for Canyon Corporation. Determine the following amounts for Canyon Corporation:

A)	Total revenues for 2014.	

B)	Total expenses for 2014.	
C)	Net income for 2014.	

- Answer
- A)

\$125,500  
(\$125,000 Sales Revenue + \$500 Interest Income = \$125,500)
- B)

\$119,200  
(\$70,000 Cost of Sales + \$4,000 Salary Expense + \$200 Income Tax Expense + \$45,000 Selling Expense = \$119,200)
- C)

\$6,300  
(\$125,500 Total Revenue - \$119,200 Total Expenses = \$6,300)

Question Canyon Corporation

The accountant for the Canyon Corporation prepared the following list from the company’s accounting records for the year ended December 31, 2014:

Retained earnings	?	Prepaid expenses	\$ 3,000
Cash	\$ 7,000	Common stock	40,000
Accounts payable	15,000	Accounts receivable	17,000
Sales revenue	125,000	Interest income	500
Cost of sales	70,000	Salary expense	4,000
Land	75,000	Income tax expense	200
Notes payable	15,000	Selling expense	45,000
Inventory	20,000	Salaries payable	5,000

Read the information for Canyon Corporation. Determine the following amounts for Canyon Corporation:

A)	Stockholders’ equity at the end of 2014.	
B)	Retained earnings at the end of 2014.	
C)	Name two events that might cause stockholders’ equity to decrease.	

- Answer
- A)

\$87,000  
(\$122,000 Total Assets - \$35,000 Total Liabilities = \$87,000)
- B)

\$47,000  
(\$87,000 Total Stockholders’ Equity - \$40,000 Common Stock = \$47,000)
- C)

Stockholders’ equity is decreased when dividends are declared and paid. Expenses or net losses also reduce stockholders’ equity.

**Question** Assume that you have received copies of the financial statements for PepsiCo for the years ending December 31, 2014 and 2013. Answer the following questions:

- A) If you were a banker, why would you need information from PepsiCo's financial statements?
- B) If you were a potential investor in PepsiCo stock, what information would you want from their financial statements?
- C) If you were a labor negotiator for a union that represents a group of PepsiCo's employees, which financial statement would provide you with the most useful information?

- Answer** A) A banker wants to be assured that the company will make its interest payments and repay the principle of the loan in a timely manner.
- B) Investors want to know whether they should make an investment in the company's stock, or continue to hold their investment. They will be looking at the company's recent performance, whether the company has been profitable, how their profits compare with other companies, and how much the company has declared and paid in dividends.
- C) A labor negotiator needs to know how much profit the company has made. This information is found on the Income Statement.

**Question** Target, Inc., started the year with total assets of \$400,000 and total liabilities of \$240,000. Net income for the year is \$120,000 and dividends declared and paid during the year are \$90,000.

- A) What is the amount of Target's total stockholders' equity at the end of the year?
- B) Could Target have paid additional dividends during the year? Explain your answer.

- Answer** A) \$190,000  
(\$400,000 Total Assets at the beginning of the year - \$240,000 Total Liabilities at the beginning of the year = \$160,000 Total Equity at the beginning of the year)  
(\$160,000 Total Equity at the beginning of the year + \$120,000 Net Income for the year - \$90,000 Dividends declared and paid during the year = \$190,000)
- B) Yes. Assuming the company has enough cash to do so, dividends can be paid. Net income exceeded the amount of dividends paid by \$30,000 (\$120,000 - \$90,000), so the amount paid could have been increased. Also the company has total positive retained earnings.

**Question** Ramos Corp. started business at the beginning of the year, with assets of \$600,000 and stockholders' equity of \$240,000. By the end of the year, assets increased by \$80,000 and liabilities increased by \$60,000. Other than net income or loss, the only change in stockholders' equity was dividends declared and paid of \$55,000.

- A) What was the amount of Ramos Corp. stockholders' equity at the end of the year?
- B) What was the amount of Ramos Corp. net income or net loss for the year?

**Answer**

A)

	Assets		Liabilities	Stockholders' Equity
Beginning of year	\$600,000		\$360,000	\$240,000
Change during year	+80,000		+60,000	+20,000
End of year	\$680,000	=	\$420,000	\$260,000

- B)
- |                  |                 |
|------------------|-----------------|
| Change in equity | \$20,000        |
| Add: Dividends   | <u>55,000</u>   |
| Net Income       | <u>\$75,000</u> |

**Question** Presented below are selected data from the balance sheet of Farmer Company for 2014. The figures are expressed in millions.

Total Current assets	\$ 5,572
Property, plant, and equipment	16,325
Other assets	?
Total Current liabilities	3,274
Total Long-term debt	5,632
Total Stockholders' equity	19,639

- A) Determine the amount of "Other assets" for Farmer's 2014 balance sheet. (HINT: you must use the accounting equation concept to determine your answer.)
- B) How much of Farmer Company is financed by creditors? How much is financed by the owners?

- Answer
- A)

\$6,648

(\$3,274 Current liabilities + \$5,632 Long-term debt + \$19,639 Stockholders' equity = \$28,545 Total Assets)

(\$28,545 Total Assets - \$5,572 Current assets - 16,325 Property, plant & equipment = \$6,648)
- B)

Amount of financing by creditors: \$8,906 or 31.2%

(\$3,274 Current liabilities + \$5,632 Long-term debt = \$8,906)

Amount of financing by owners: \$19,639 or 68.8%

(\$19,639 Stockholders' equity)

**Question** Presented below are selected data from the accounting records for Micco’s Gift Store for 2014.

Net sales	\$ 190,000
Income taxes	30,000
Cost of sales	80,000
Operating expenses	45,000
Dividends	12,000

- A) Calculate the net income or loss for 2014.
- B) Explain how the amount from part “A” will affect the financial position of Micco’s Gift Store.
- C) Is the company profitable? Explain your answer.

- Answer A) 

\$35,000

(\$190,000 Net sales - \$30,000 Income taxes - \$80,000 Cost of sales - \$45,000 Operating expenses = \$35,000)
- B) Net income will improve the company’s financial position.
- C) Yes. The amount of revenues exceeds the amount of expenses by \$35,000.

**Question** The following information comes from the records of Morton Corporation. Assume no additional investment by owners when answering the following questions:

	<u>Assets</u>	<u>Liabilities</u>	<u>Owners' Equity</u>
January 1, 2014	\$ 98,000	\$ 54,000	\$
December 31, 2014	131,000		84,000

- A) What is the amount of owners’ equity at January 1, 2014?
- B) What is the amount of liabilities at December 31, 2014?
- C) Assume that the company declared and paid dividends of \$22,000 during the year. How much net income did it earn during the year?
- D) Assume that the company paid no dividends during the year. Without looking at the income statement, how can you tell if the company is profitable or not?

- Answer A) 

\$44,000

(\$98,000 Assets - \$54,000 Liabilities = \$44,000)
- B) 

\$47,000

(\$131,000 Assets - \$84,000 Owners’ Equity = \$47,000)
- C) 

\$62,000

(\$44,000 Beginning Owners' Equity + X - \$22,000 Dividend = \$84,000 Ending Owners’ Equity)

(X = \$106,000 - 44,000 = \$62,000)
- D) Assuming that the increase in owners’ equity would come from net income, the company would have to be considered profitable. Net income will increase retained earnings which is a part of owners’ equity

**Question** The Trenton Corporation began 2014 with \$390,000 in assets, \$140,000 in liabilities, and \$170,000 of retained earnings. Net income for the year was \$120,000, and dividends of \$110,000 were declared and paid.

- A) Prepare a statement of retained earnings for 2014.
- B) What is the nature or purpose of the statement of retained earnings?
- C) What was the amount of capital stock for Trenton Corporation at the beginning of 2014?
- D) Identify what business events might occur in Trenton Corp.'s business operations that would cause the two stockholders' equity items to increase.
- E) How do you identify whether Trenton was profitable during 2014 by examining the statement of retained earnings?

**Answer** A)

Trenton Corporation	
Statement of Retained Earnings	
For the Year Ended December 31, 2014	
Beginning balance	\$170,000
Add: Net income for the year	120,000
Deduct: Dividends for the year	(110,000)
Ending balance	<u>\$180,000</u>

- B) The statement of retained earnings explains the change in retained earnings during a period.
- C) \$80,000  
(\$390,000 Total Assets - \$140,000 Total Liabilities - \$170,000 Beginning Retained Earnings = \$80,000)
- D) One way that the company can increase stockholders' equity is to sell additional shares of stock. Retained earnings will increase when the company reports net income for the period greater than the dividends paid.
- E) The statement of retained earnings shows that the company was profitable for the year by reporting net income for the period. If the company were to experience an operating loss, then this would be shown as a deduction from the beginning balance of retained earnings.

**Question** Below are several accounts from Costello Company's accounting records. Answer the questions that follow.

Total liabilities, end of the year	\$92,000	Total assets, end of the year	\$143,000
Capital stock, end of the year	16,000	Retained earnings, beginning of the year	15,000
Dividends declared and paid for the period	20,000	Net income	40,000

- A) How much is the balance of retained earnings at the end of the year?
- B) Show the accounting equation for Costello Company at the end of the year with the respective dollar amounts.
- C) If stockholders' equity increases during the year, does that mean that the company is profitable? Explain your answer.

**Answer** A)

\$35,000  
(\$15,000 Retained earnings, beginning of the year + \$40,000 Net income - \$20,000 Dividends for the period = \$35,000) OR  
(\$143,000 Total assets, end of the year - \$92,000 Total liabilities, end of the year - \$16,000 Capital stock, end of the year = \$35,000)

- B) \$143,000 Total assets, end of the year = \$92,000 Total liabilities, end of the year + \$51,000 Owners' Equity, end of the year (\$16,000 Capital stock, end of the year + \$35,000 Retained earnings, end of the year)
- C) This would depend upon what causes the stockholders' equity to increase. If the increase were due to an increase in retained earnings, then the company would have been profitable for the period. But if the increase were due to an increase in the amount of capital stock issued, this would not be a measure of profitability.

**Question** Several amounts from Duggard Company at December 31, 2014 are listed below. Answer the questions.

Service revenue	\$245,000	Salaries expense	\$109,000
Dividends declared and paid	15,000	Rent expense	36,000
Buildings	110,000	Land	100,000
Accounts payable	40,000	Accounts receivable	28,000
Capital stock	60,000	Retained earnings, Jan. 1, 2014	40,000
Utilities expense	19,000	Notes payable	30,000
Income tax payable	4,000	Income tax expense	11,000

A) Calculate net income for 2014.

B) How much is Duggard Company’s retained earnings at the end of 2014?

C) What primary asset account is missing?

- Answer**
- A) \$70,000  
(\$245,000 Service Revenue - \$109,000 Salaries Expense - \$36,000 Rent Expense - \$19,000 Utilities Expense - \$11,000 Income Tax Expense = \$70,000)
- B) \$95,000  
(\$40,000 Retained Earnings, Jan 1, 2014 + \$70,000 Net Income - \$15,000 Dividends Paid= \$95,000)
- C) The Cash account is missing.

**Question** Joseph is the president of Sunshine Enterprises. Sunshine Enterprises began business on January 1, 2014. The company's controller is out of the country on business. Joseph needs a copy of the company's balance sheet for a meeting tomorrow and asks his assistant to obtain the required information from the company's records. She presents Joseph with the following balance sheet. He asks you to review it for accuracy.

Sunshine Enterprises Balance Sheet December 31, 2014			
ASSETS		LIABILITIES & STOCKHOLDERS' EQUITY	
Accounts payable	\$ 30,600	Accounts receivable	\$ 24,200
Building and equipment	177,300	Supplies	12,200
Cash	14,700	Capital stock	100,000
Cash dividends declared and paid	16,000	Net income for 2014	113,800

**Required**

1. Prepare a corrected balance sheet.
2. Draft a memo explaining the major differences between the balance sheet Joseph's assistant prepared and the one you prepared.

**Answer**

1.

Sunshine Enterprises Balance Sheet December 31, 2014			
ASSETS		LIABILITIES & STOCKHOLDERS' EQUITY	
Cash	\$ 14,700	Accounts payable	\$ 30,600
Accounts receivable	24,200	Capital stock	100,000
Supplies	12,200	Retained earnings	97,800*
Building and equipment	177,300		
Total assets	\$228,400	Total liabilities and stockholders' equity	\$228,400

\* \$113,800 - \$16,000

2.

Memorandum to the company president:  
TO: Company president  
FROM: Your name  
DATE: January 1, 2015  
SUBJECT: Corrected balance sheet

Attached please find the original balance sheet your assistant prepared, along with a corrected version of that same statement. The differences can be explained as follows:

- 1. The balance sheet is always as of a certain date, in this case, December 31, 2014, rather than a period of time, such as a year.
- 2. Accounts payable should be classified as a liability.
- 3. Cash dividends declared and paid do not belong on the balance sheet; this amount should appear instead on the statement of retained earnings for the year.
- 4. Accounts receivable should be classified as an asset.
- 5. Net income for 2014 does not belong on the balance sheet; this amount should appear instead on the statement of retained earnings for the year.
- 6. Supplies should be classified as an asset.
- 7. Retained earnings should appear with capital stock as a component of stockholders' equity on the balance sheet. Since this is the first year of operations, the retained earnings balance comprises the net income for the year less the cash dividends declared and paid.
- 8. Totals were added as necessary to provide summary information.

**Question** The following items are available from the records of Ramos Corporation at the end of its fiscal year, June 30, 2014:

Accounts payable	\$17,000
Advertising expense	4,600
Accounts receivable	5,700
Notes payable	50,000
Buildings	35,000
Office equipment	12,000
Inventory	12,100
Retained earnings (end of year)	26,300
Capital stock	25,000
Salary and wage expense	8,230
Cash	21,900
Sales revenue	14,220
Computerized grinders	25,800
Hand Tools	5,800

**Required**

- (1) Prepare a balance sheet.
- (2) For each non-balance-sheet item, indicate where it should appear.

**Answer (1)**

**RAMOS CORPORATION  
BALANCE SHEET  
JUNE 30, 2014**

Assets		Liabilities and Stockholders' Equity	
Cash	\$ 21,900	Accounts payable	\$ 17,000
Accounts receivable	5,700	Notes payable	50,000
Inventory	12,100	Capital stock	25,000
Computerized grinders	25,800	Retained earnings	26,300
Office equipment	12,000		
Buildings	35,000		
Hand tools	5,800		
Total assets	<u>\$118,300</u>	Total liabilities and stockholders' equity	<u>\$118,300</u>

- (2) Items not shown on a balance sheet and where they would appear:
- Advertising expense—income statement
  - Salary and wage expense—income statement
  - Sales revenue—income statement

**Question** **Tentco** reported the following amounts in various statements included in its 2014 annual report. (All amounts are stated in millions of dollars.)

Net income for 2014	\$142
Cash dividends declared in 2014	15
Retained earnings, December 31, 2013	\$ 95

**REQUIRED:**

- (1) Prepare a Statement of retained earnings for the year ended December 31, 2014.
- (2) Assume that Tentco presents a statement of stockholders' equity rather than a statement of retained earnings in its annual report. Explain how the information differs between the two statements.

**Answer (1)**

**Tentco  
Statement of Retained Earnings  
For the Year Ended December 31, 2014  
(amounts in millions)**

Retained earnings, beginning of year	\$ 95
Add: Net income for the year	142
Deduct: Dividends for the year	<u>(15)</u>
Retained earnings, end of year	<u>\$ 222</u>

- (2) The statement of stockholders' equity would include all changes in stockholders' equity such as issuances and retirements of stock in addition to the information normally provided in a retained earnings statement.

**Question** The following information is available from the records of Focus Seascapes, Inc. at the end of the 2014 calendar year:

Accounts payable	\$ 4,700
Service revenues	28,000
Accounts receivable	3,600

Other income (expense)	<u>693</u>	<u>(118)</u>
Income (loss) before income taxes	9,776	6,284
Income tax expense	<u>3,534</u>	<u>2,388</u>
Net income (loss)	<u>\$ 6,242</u>	<u>\$ 3,896</u>

**Required:** Based on the information provided, is Gallo Factory considered a business or non-business entity? How do you know by examining the financial statements?

**Answer** Gallo Factory is a business entity, because its purpose is to make a profit, not simply provide a service. Non-business entities have no owners, and Gallo Factory has owners, as evidenced by examining the stockholders' equity section of the balance sheet.

**Essay** **0 points**

[Modify](#) [Remove](#)

**Question** In 2014, you invested \$12,000 along with 5 other investors in a new theatre, Rock-On, that offers Broadway play productions. Because you live out of state, you have **not** been actively involved in the daily affairs of the theatre. On January 10, 2015, you are excited because you received \$12,000 as a dividend after the end of the 1st year of the theatre's existence. Included with your \$12,000 check are financial statements and some supplemental information regarding the accounting. The supplemental information explains:

- (1) During the last three months of 2014, an aggressive advertising campaign resulted in the sale of 600 season tickets for the 2015 productions. Each season ticket cost \$120 and the resulting \$72,000 was included in 2014 income.
- (2) Along with the advertising campaign, the general manager was able to secure pledges of \$7,500 for advertising by local merchants in the playbills for the first two productions for 2015. This amount is included as advertising revenue in the 2014 financial statements.

REQUIRED:

Are there any problems related to the supplementary disclosures? If so, explain and indicate what effects (over- or understatements) these items will have on the financial statements.

**Answer** The recognition of the 2015 season ticket sales as revenue in 2014 should not be recognized as revenue in the current year, because Rock-On has not provided these ticketholders with any service yet.

The recognition of \$7,500 in advertising revenue is currently just a pledge for 2015 playbills. It is not clear whether a contract has been signed with the advertisers and it sounds as if no money has changed hands. In any event, this revenue will need to be matched with the period in which the playbills are used (or 2015) rather than the current year of 2014.

As a result, the 2014 net income will be overstated by \$79,500 and the 2015 net income will be understated by \$79,500.

**Question** List three different groups of users of accounting information. Indicate the type of decisions each group typically makes from accounting information.

**Answer** The groups and their decisions are:

Stockholders:	Is the company profitable enough to pay dividends? Did the company make a profit for the period?
Management:	How should an item be priced? Should we continue operations? Can we give employees raises?
Bankers:	Can the company pay interest and principal when it comes due?
Creditors:	Can the company pay bills when they are due?
Government:	How much did the company earn? (i.e., how much taxes should be paid?)

**Question** List the four financial statements. Explain the connection between these four statements.

**Answer** 1. Balance sheet  
2. Income statement  
3. Statement of retained earnings  
4. Statement of cash flows

Net income on the income statement increases retained earnings on the statement of retained earnings. The ending balance in the statement of retained earnings goes to the balance sheet. Finally, the net increase in cash at the bottom of the statement of cash flows equals the amount shown in cash on the balance sheet.

**Required:** Which statement indicates the financial position of the company? What information is provided on that statement that indicates the "financial position" of the company? Explain.

**Answer** The balance sheet, Statement A, provides information on the financial position of the company. It is expressed in terms of the accounting equation. When total liabilities are subtracted from total assets, the difference is owners' or stockholders' equity. This amount represents net worth or the financial position of a company at the balance sheet date.

**Required:** How much of Gallo Factory is financed by creditors at the end of December of 2014? Evaluate the change from 2013 to 2014.

**Answer** The amount of financing by creditors for 2014 is the amount of liabilities reported on the balance sheet, \$58,593. For 2013, the amount was \$59,552. Total liabilities decreased by \$959, or about 1.6%. The company must be keeping its debt at a steady position as stockholders' equity and assets have increased. The change must be examined relative to the entire financial position.

**Question** The following accounting principles and assumptions are included in the conceptual framework of accounting:

Economic entity	Going concern	Cost principle
Monetary unit	Time period	

For each situation in A through C below, identify which assumption or principle applies by selecting from the list provided above, and explain why that assumption or principle applies.

- A)

Global Corp. has divisions in several countries around the world. Each of these countries has a currency different from the U.S. dollar. Global Corp. is a U.S. company and must include the financial data of its worldwide divisions in its financial statements.
- B)

Steve and Mike operate a security business as a partnership. They are considering the advantages of changing over to the corporate form of business.
- C)

Island Pasta is a locally owned and operated fast-food business. The owners have decided to expand into nearby cities. Expansion will require more capital, but management doesn't expect it will stay in business for more than a year or so regardless if it expands or not.

- Answer**
- A)

Monetary unit. Financial statements must be denominated in one currency--the standard monetary unit. In the United States, this unit is the dollar.
- B)

Economic entity. A business can take three forms. Regardless of form, however, the unit itself is distinct from other units.
- C)

Going concern. A business is assumed to continue indefinitely to more accurately reflect the valuation of assets and appropriately allocate costs to accounting periods.

**Question** What is meant by generally accepted accounting principles?

**Answer** Generally accepted accounting principles (GAAP) are a set of guidelines that are based on a conceptual framework. They represent the various rules, practices, and other procedures used as a basis for accounting principles. GAAP was created in response to the need for some form of regulation over the preparation of financial statements.

**Question** Discuss the four steps in the ethical decision model used by accountants. Expand the discussion to include questions that you would ask to analyze the key elements in the situation.

**Answer** The four steps in the ethical decision model include:

1. Identification: Recognize an ethical dilemma.
2. Analysis: Analyze the key elements in the situation.
3. Alternatives and Evaluation : List alternatives and evaluate the impact of each on those affected.
4. Resolution: Select the best alternative.

During the analysis phase, analyze the key elements in the situation by answering these questions in sequence:

- a. Who may benefit or be harmed?
- b. How are they likely to benefit or be harmed?
- c. What rights or claims may be violated?
- d. What specific interests are in conflict?
- e. What are my responsibilities and obligations?

**Question** Develop an ethical dilemma scenario that an accountant may face and give examples of key elements (listed below) that should be considered when analyzing the decision:

1. Those who may benefit or be harmed
2. What potential benefits or harm could result from the situation
3. The rights or claims violated
4. The specific interests in conflict
5. The responsibilities and obligations

**Answer** Student answers will vary but may include some of the following:

1. Players in the scenario: Management, shareholders, potential investors, the auditor, creditors, and employees may benefit or be harmed.
2. Benefits including higher pay, promotion, increased status in the community and harm including loss of job, bankruptcy, customer's failure to pay debt.
- 3.Rights or claims including payments to creditors and obligations to customers.
4. Conflicting interests including a member of the board of directors who is also a company employee or a manager whose bonus is based on the manipulation of sales and/or other reporting.
5. Responsibility of the accountant to provide the most accurate information and report fraud.
