Question Psychology's intellectual parents are the disciplines of
Answer

- ☐ physics and physiology.
- ☒ philosophy and physiology.
- ☐ chemistry and physics.
- ☐ philosophy and chemistry.

Question 2

Multiple Choice

0 points

Question The person responsible for establishing psychology as an independent discipline with its own subject matter is
Answer

- ☐ G. Stanley Hall.
- ☐ René Descartes.
- ☐ William James.
- ☒ Wilhelm Wundt.

Question 3

Multiple Choice

0 points

Question According to historians, the "birth" of psychology occurred in
Answer

- ☐ 1859 in England.
- ☒ 1879 in Germany.
- ☐ 1883 in the United States.
- ☐ 1909 in the United States.

Question 4

Multiple Choice

0 points

Question The notion that the subject matter of psychology should be the scientific study of conscious experience is MOST closely linked with
Answer

- ☐ William James.
- ☒ Wilhelm Wundt.
- ☐ Sigmund Freud.
- ☐ John B. Watson.

Question 5

Multiple Choice

0 points

Question According to Wilhelm Wundt, the focus of psychology was on the scientific study of
Answer

- ☐ observable behavior.
- ☒ conscious experience.
- ☐ unconscious motivation.
- ☐ the functions of behavior.

Question 6

Multiple Choice

0 points

Question Wilhelm Wundt believed the focus of psychology should be
Answer

- ☐ questioning the nature of existence.
- ☐ studying stimulus-response associations.
- ☐ determining people's unconscious motivation for behavior.
- ☒ examining people's awareness of their immediate experience.

Question 7

Multiple Choice

0 points

Question According to your textbook author, one factor that contributed to both the birth of psychology in Germany and the rapid growth of psychology in the United States toward the end of the 19th century is that
Answer

- ☐ intellectual climates in both countries favored the development of new nonscientific approaches.
- ☐ many American students choose to study in Germany.
- ☒ resources were available for expansion and universities climates were open to the development of new disciplines.
- ☐ Wilhelm Wundt was a tireless scholar who generated numerous books and articles while establishing the APA in 1892.

Question 8

Multiple Choice

0 points

Question The two disciplines from which psychology developed were
Answer

- ☐ sociology and philosophy.
- ☒ philosophy and physiology.
- ☐ physiology and theology.
- ☐ physiology and sociology.

Question 9

Multiple Choice

0 points

Question While the term psychology has existed since at LEAST the early 1700s, psychology did not come to be considered a science until
Answer

- ☐ the 1750s.

- ☐ the early 1800s.
- ☒ the late 1800s.
- ☐ the 1940s.
